

## Directions to Our New Office

For those of you who may be "direction challenged" finding our new office should really be as simple as:

1. Go to our old office but stop at the front entrance. (If you are facing the front entrance of the new building there is lots of parking to your left on the side of the new building).
2. Turn around and face Roosevelt Field
3. Turn right and there should be a building looking right at you.
4. You can go into the front or back entrance. Take the elevator to the second floor and turn left when leaving the elevator. Walk as far as you can and you're here - Suite 214.

**We welcome the referral of your families, friends and business associates.**  
**Please ask them to mention your name when they call.**

**Happy New Year**

## Your latest Issue of The Handz of Ganz

### Last Month's Riddle:

#### What am I?

I'm as small as an ant, as big as a whale. I'll approach like a breeze, but can come like a gale. By some I get hit, but all have shown fear. I'll dance to the music, though I can't hear. Of names I have many, of names I have one. I'm as slow as a snail, but from me you can't run. What am I?

**The Answer:** A shadow. The Winner was Peter S. Enjoy your Circuit City Gift Certificates with our thanks

### This Month's Riddle:

Why should you never mention the number 288 in front of anyone?

**If you think you know the answer to this riddle, give us a call right away! Hey, 'ya never know!**

# The Handz of Ganz

Vol. 3 Issue 1 Jan 2007

## From Dr. Ganz

**We're Here!** As of January 1st we have moved our office to 300 Garden City Plaza. We've listened to your requests and believe we have created a new office that will make dentistry a far more pleasurable experience. We look forward to seeing you, your family and friends at our new home real soon. We are looking forward to a terrific new year and are thrilled to be able to share it with you, our dental family.

## *Dr. Cary Ganz, Family and Staff*

### Moving Is Never Easy

I wanted to take a moment to give my heart felt thanks to a team of people, without whom this move could never have been done. Thanks to my dental family; Joanne, Sheryl, Lori, Rosie, Carly and Moe, the move into our new office went probably as smoothly as humanly possible.

We started our move on Wednesday Dec, 27, 2006 and are just about finished opening the last boxes as of this writing. Moving a dental office is pretty much like moving a large home; boxes and boxes that just never stop.

I also want to thank some other people that worked way beyond the normal call of duty to help us with this move. My dental supply company with whom I have had a relationship for over thirty (30) years, did an amazing job moving some of our existing equipment and then installing it along with the new equipment. They worked day and night to make sure that our new office was not only functional but state of the art as well. Our construction company, Analiese Construction, built our new home as if they were building their own home. Stevie, the Super on the job, is still here putting on the finishing touches. His efforts alone have made this new office something we are all proud to be part of. And I cannot forget my decorator, Ted, whose efforts and skills are evident from the moment you open the entrance door.

When it comes to technology, our IT expert Scott Sanford has provided us with just about every technology available today. Wireless hotspots in the reception room for you techies who need to be connected at all times to iTunes throughout the office. Really amazing stuff.....

Finally, I want to thank my wife Barbara and all of my kids for their help and support during a real tough transition. Moving is never easy, but with their help we are finally here and ready to welcome all of you over the coming weeks.

### We've Listened

Over the past couple of years we've periodically sent out questionnaires asking for comments and suggestions that would make your dental visit more pleasant, rewarding and comfortable. We listened! Our new office has been designed to provide you, our family of patients, with everything you asked for and more. From our cozy reception room with coffee, cookies and bottles of water to our treatment rooms with personal TVs and music. We listened! Our new *private* treatment room was designed for those of you that prefer total privacy while open treatment rooms are available for those that like a bit more open space. We listened. And that's just the beginning.....
