

# Your Valentine Deserves It!

Okay, you've done the chocolate thing, perhaps flowers and which piece of jewelry to buy is becoming an ever increasing problem. What can you give your valentine this year that will be different, ever-lasting and show your love and affection just about every day, not just on February 14th?

Have you ever thought of giving your Valentine a beautiful smile?

Let's assume, just for a moment that this sounds like a good idea. The next question is, "How do I surprise my valentine with a gift like this?" Let's create that surprise together.

We suggest that you send us a photograph of your Valentine at least two - three weeks before Valentine's Day. We will scan that image into our computer and then create, using Computerized Video Imaging, what we consider to be the ideal smile.

We will send you the Before and After picture. You can then place it in an appropriate Valentine's Card (this is something you will have to do for yourself, sorry) and present it to your Valentine. If you need estimates for the costs involved in providing these cosmetic services we will be happy to provide them to you prior to the gift giving.

In order to accomplish this Valentine's Day Smile we will need to have a real good picture of your Valentine showing their smile in pretty good detail. An example of an ideal picture is presented to assist you in selecting an appropriate picture. Send that picture to us with any comments you might have regarding the changes your Valentine may have mentioned in the past. ( i.e. whiter teeth, fixing that crooked smile, repairing that chipped tooth etc.) We will make the changes within 24 hours and send the Before and After back to you for review. If you want to make any alterations please give us a call. If no changes are needed we will then print the pictures on glossy paper and send them to you in time for Valentine's Day.

We've also taken the liberty to include our Complimentary Cosmetic Consultation referral cards for you to give to your friends, family or business associates.

Your dental team,

**Cary, Joanne, Barbara, Michelle, Cassandra, Dean, Samantha and Melissa**
